### **DETAILED ACTION**

**The declaration filed, on 05/21/07, under 37 CFR § 1.131 has been considered and is effective to overcome the Levine et al reference. The evidence submitted is sufficient to establish a reduction to practice of the invention in this country or a NAFTA or WTO member country prior to the effective date of the these references. The Levine et al reference is hereby withdrawn. Claims 6-19 are currently pending and have been fully considered.**

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Dykstra et al (Dykstra hereinafter, US PAT: 5,611,052).

**Re claims 6, 7-19.** Dykstra discloses An automated system for matching borrowers to savers comprising an interconnected group of computers conducting a savings and loan auction between a plurality of savers' institutions acting on behalf of a plurality of savers and a plurality of borrowers' institutions acting on behalf of pre-qualified borrowers for a plurality of pre-set amounts of offered principal, each offered principal being offered for one of a plurality of pre-set time periods via a funds auctioneer, said system further comprising:

(a) at least one of said group of computers being operated by said funds auctioneer; (b) a computer network comprised of said interconnected group of computers (see fig.1 element 10);

(c) means for receiving an electronic savings deposit offer and ask rate from a prospective saver's institution over said computer network (see fig.1 element 24 and 32);

(d) means for receiving an electronic loan request and bid rate from a prospective borrower's institution over said computer network (see fig.1 element 22 and 24);

(e) means, located at said funds auctioneer, for electronically sorting, matching, and selecting electronic savings deposit offers and ask rates which match with electronic loan requests and bid rates to form a plurality of matches of bids and asks or transactions (see fig.2a element 112), (f) means, operated by said funds auctioneer, for electronically confirming each said match of a bid and ask to each said saver's institution and each said borrower's institution which is a party to the matched bid and ask or transaction over said computer network (see fig.2D , elements 194 and 196), (g) means, operated by said funds auctioneer, for electronically confirming each said match of a bid and ask to a clearing house bank and a surety, specifying each said saver's institution and each said borrower's institution, which is a party to the matched bid and ask or transaction, over said computer network (see fig.2d elements 198); (h) means, operated by said funds auctioneer, for electronically monitoring payments of principal and interest from each borrower's institution that is a party to a transaction via the clearing house bank to each saver's institution that is a party to the matched

transaction; (i) means for electronically issuing a negotiable certificate of deposit from the auctioneer to a saver via saver's institution and the clearinghouse bank; (j) means for electronically redeeming and issuing notification of redemption of said auctioneer's negotiable certificate of deposit to the surety, the clearing house bank, the saver's institution, and the borrower's institution; and (k) means, operated by said funds auctioneer, for electronically monitoring payments of principal and interest from each borrower's institution that is a party to a transaction via the clearing house bank to each saver's institution that is a party to the matched transaction (see the summary of the invention, also see col.5 line1 – col.6 line 65).

### ***Response to Arguments***

Applicant's arguments with respect to claim 6-19 have been considered but are moot in view of the new ground(s) of rejection.
